Subject: Field Modification Forms - Modifications No. 1 and No. 2
Attachments: removed.txt; SAP-Record of Modification No 1.docx; SAP-Record of Modification No 2.docx

Mike and Roger:

We have created the field modification forms for CFAC Phase 1 Site Characterization by modifying the template provided by Roger from another site.

I have attached two completed forms for the modifications thus far that we have discussed as requiring use of the form. These are for the elimination of VOC analyses from the ISM samples, and for not installing deep Monitoring Well MW-23a due to the site specific conditions encountered.

Mike, if you concur with these, please insert your e-signature and return. If you have any comments, let me know and we adjust if needed.

Regards,

Drew
